FIRE, BLOODSHED AND RIOTS AT BAKIL

Armenian and Tartar Warring Factions Are Entirely Beyond Control.

ST. PETERSBURG, Sept. 7, 2:50 a. m .-The news from Baku received up to the time of the filing of this dispatch is of the gloomlest character. The Armenian and Tartar warring factions now appear to be entirely beyond control. The streets of Baku seem to be unsafe for the inhabitants, and the force of troops to be inadequate to restrain the anarchical tendencies of the combatants in the sur-

Force Troops to Withdraw.

According to reliable reports the troops have been forced to withdraw from the suburb of Balakhan, where Tuesday the rioters set fire to the oil works, and that place is now in the hands of the Tartars, who have completed the work of destruction, and who, it is said, massacred the inhabitants who did not accompany the troops in their retirement. Telephonic and railroad communication between Baku and the suburban oil centers are cut, and late last night it was reported that the wires into Baku were down. Fight Is Desperate.

The Viceroy of the Caucasus has dispatched reinforcements of troops from Tiffs, but owing to the conditions throughout the whole of the southern part of the Caucasus, with these reinforcements the troops will be inadequate to cope with the situation. In the suburban region the fight is desperate, and the soldiers are using artillery. Oil Industry Badly Crippled.

Representatives of the oil industry here are utterly despondent, and they declare that on the basis of the telegrams so far received more than half of the industry in the Baku region, has been wiped out, and that the fire is making rapid inroads into the remainder of the oil territory.

press dispatch from Baku approved

A press dispatch from Baku, approved by the censor, says:

"The rival factions are concentrating in their quarters here. The situation is exceedingly tense Murders are frequent. Cannonading is heard from time to time. In the Mostem quarter the patrols have been fired upon. Balakhan is on fire and the Armenians are surrounded by armed villagers, apparently Tatars, and the cannonading there is unceasing. "The fire continues in the Blacktown quarter and in Biblebat. Energetic measures and heavy reinforcements of troops are immediately necessary."

Great Fires Are Raging.

Great Fires Are Raging.

Other advices state that a hot fight is going on between Armenians and Tartars at Biblebat, and that great fires are still raging at Sabunto and Nomani, fed by immense tanks of naptha, of which there are 1900 in that region, and that the conflagration at Baku, where up to last-evening the tanks of the society of Eaka were intact is steadily increasing. Under these conditions, with fighting going on in the streets and with a hurricane blowing, the advices say it will be almost impossible to extinguish the fires.

Oil Men Appeal to Government.

Oil men who assembled at St. Petersburg vesterday formulated measures which they deemed imperative and which they presented to Finance Minister Kokovsoff. These measures, which probably will be laid before the Emperor, after detailing the causes leading to the present situation, ask that the oil works be surrounded by troops and that the infammable elements, namely, the Arflammable elements, namely, the menians and Tartars, be entirely menians and Tartars, be entirely ex-cluded from the oil region. The oil men-declare that they do not hold the work-men responsible, and that the regrettable events were not caused by the working-men's movement, which is economic and political, but that their causes are deep-rooted in the long continued general dis-order which has been prevalent.

Feeling of Chagrin.

NAGASAKI, Aug. 31.—The pence news was received without enthusiasm in the chief centers of Kiu Shiu province. There is a general feeling of chargin that Japan has been deprived of the rightful fruits of victory, and there is disappointment, especially at the fact that permanent security from Russian aggression has not been secured.

The diplomatic failure is considered to be due to the negotiations commencing prematurely.

BLACK APPEARS

Former Governor Represents Big Company in Committee's Investigation.

DECLARES EVERY AID WILL BE GIVEN TO INQUIRY

Legislators Want to Devise Laws to Compel Companies to Be Mutual.

NEW YORK, Sept. 6.-Former Gov. Frank Black of this State appeared as counsel for the Equitable Life Assurance society before the joint legislative committee today when the committee commenced its investigation of life insurance conditions in this State. The committee is composed of Senators William W. Armstrong, chairman, Frank J. Tully and Daniel J. Riordan, and Assemblymen James T. Rogers, Robert Lynn Cox, William Wemple, Ezra A. Prentice, secre-tary, and John McKeon. Before the hearing opened Mr. Black said.

"We have nothing to conceal, and no one to protect. We seek no legal technicalities to evade answering any questions. We will aid in every way the progress of the inquiry."

Paul D. Cravath was present in the interest of Thomas F. Ryan, and Thomas C. Guillver, counsel for J. H. Hyde Senator Armstrong, in outlining the purpose of the investigation, said:

Nothing to Conceal.

Purpose of Investigation.

"Our object will not be to punish any-body for wrong doing in the past, but to get at all of the sallent features of the modern insurance business, so as to sug-

modern insurance business, so as to suggest to the next Legislature an adequate law that will not only protect the policyholders in all life insurance companies, but will likewise protect the insurance company's management from abuse at the hands of designing persons.

As most insurance companies are mutual in theory, we shall endeavor to pass a law that will compel them to be mutual in fact. Then the officers of the company will always be working for the interest of the policy-holders, instead of working for the interests of themselves by the formation of subsidiary companies to divide the profits of the main company. A large number of the present insurance laws are good, it will be our aim to make them better."

Bring Company's Books.

Bring Company's Books.

Bring Company's Books.

Several of the members of the life Insurance company who had been subpoenaed appeared before the committee, as did several officers who were not summoned. With them came the company's books, covering the business of the ten years. The officers present were John W. McCall, president; George W. Perkins, T. A. Buckner, D. P. Kingsley, vice-presidents; Rufus W. Weeks, chief actuary, E. R. Perkins, second vice-president, John C. McCall, secretary; E. D. Randolph, treasurer, and many junior officers.

Vice-President Perkins said that no legal counsel was present to represent the company, and that none was needed. James M. Beck represented the Mutual Life, Insurance company of New York, Frank Lawrence and Frank H. Piatt the Mutual Reserve Life Insurance company, and Richard E. V. Lindabetry the Metropolitan Life Insurance company.

Quotes Henry B. Hyde.

In the opening of the hearing counsel for the committee stated that the first subject taken up would be the position of the policy-holders in the administration of the company. He quoted the evidence once given by Henry B. Hyde, founder of the Equitable society, to show the position of the Equitable stockholders.

Robert A. Granniss, first vice-president Robert A. Granniss, first vice-president of the Mutual Life insurance company, was called as the first witness. He testi-fied that he was a director of the United States Mortgage and Trust company, and one of the lwayers of the trust company.

Has By-Laws Identified.

Mr. Hughes, counsel for the committee, quoted from the charter of the Mutual the clauses giving rights to the policyholders in the election of officers and other administrative rights, and had the by-laws of the company identified and placed on the record.

Only One Case of Proxy.

Vice-President Grannis testified that there had been only one case in the last five or six years of votes cast by proxy in the Mutual Life Insurance company's leetions. He estimated that President Richard A. McCurdy of the Mutual and himself held about 20,000 proxies. Mr. Hughes asked who was general manager of the Mutual, and received the reply that this position was filled by Robert S. McCurdy, son of the president of the company.

Relies on Officers.

Relies on Officers.

Walter G. Oakman, himself a trustee of the Mutual, who testified that he had served as an inspector of the elections in question, was asked how he knew that the electors were genuine policy holders. In reply he said that there was no examination of credentials, no presentation of policies or any other way of certifying the right of a prospective voter to cash his ballot. Mr. Oakman stated that he relied on officers of the company, who, he said, were always present during the two-hour election period, to tell him whether the electors pisenting themselves were entitled to vote. entitled to vote Accepts Voters' Statements.

PAT CROWE SHOOTS OMAHA OFFICER IN LEG

Fugitive Again Returns to Old Haunts and Again Escapes Police.

OMAHA, Sept. 6.-During a running fight between police officers and a man believed to be Pat Crowe, the alleged kidnaper of Eddie Cudahy, and a companion, just before midnight tonight, Patrolman Albert Jackson was shot through the leg and the two men made their escape. None of the other officers was injured. A large detail of officers was immediately sent to the spot to try to locate the fugitives. The fight occurred on lower Sixteenth street, where the men were discovered by Officer Jackson ir, a saloon.

Had Force on Trail.

Ever since Crowe returned to Cmaha several weeks ago, Chief Donahue has had a force of efficers, most of them in citizens clotaing seeking to capture him. This task was extremely difficult because none of the efficers knew Crowe, Jackson being an exception. It was learned by the police that Crowe was in Omaha and extra efforts were made to locate him. Jackson and Officer Leahy were sent to lower Sixteenth street, where Crowe was believed to be.

Open Fire When Followed.

About II o'clock ton-ght Jackson saw a man whom he recognized as Crowe with a companion in a saloon at Sixteenth and Dorcas streets. He sent Leahy to a telephone to secure additional officers, meantime watching the man himself. The men left the saloon just as a car, carrying additional officers came up, and Jackson started to follow them. Seeing that they were being followed, the two men opened fire on Jackson, emptying their revolvers, one bullet breaking Jackson's leg.

Officers in Pursuit.

Officers in Pursuit. The other officers started in pursuit, joining in the fusillade of shots being sent after the fugitives. The latter, however, made good a temporary escape. Half the police force was sent to the district in which the shooting occurred and was put to work to locate and arrest the pair. This they had not been successful in doing up to midnight.

Don't Doubt It Is Crowe.

While the police have no positive knowledge that one of the men was Crowe, they do not hesitate to believe that such is the case. Officer Jackson who was acquainted with Crowe, says that there can be no doubt of the identity of the man. He says the man recognized him and realizing that he was an officer, took a desperate chance of getting away by using his revolver.

Officer Leahy also says ne is sure that the man was Crowe. That the fugitive is a desperate man there is no doubt and every effort is being made to secure his capture, as well as that of his companion.

NEW YORK, Sept. 6-Three hundred drivers of United States mail wagons quit their jobs at 10 o'clock tonight. More their jobs at 10 o'clock tonight. More than a score of them descried their wagons at the mall-street entrance of the general postoffice after they had received word that the strike had been decided upon. It is an echo of the trouble over wages some weeks ago. The leaders of the men say that the agreement the bosses made with them has not been lived up to. They also demand an increase of wages.

Keen Service Rupping.

Keep Service Running.

Acting Superintendent of Mails Fox said at the postoffice, after the men had left the wagons, that, although there were 150 mail routes to be delivered to railroad stations and branch offices up to clock Thursday morning, he thought re would be no difficulty in keeping service running.

Couldn't Effect Settlement.

All of the men are employed by the New York Mail company. The 215 men in conference tonight, in view of the question of strike, decided unanimously according to the statement of the president, Thomas Tandy, to go on strike. He says that H. G. Wallcott, the manager of the New York Mail company, and E. G. Travis made an agreement at the time of the temporary settlement of the difficulty previously that the matter would be adjusted permanently on the first of this month. He declared that he has been unable to effect any settlement.

THIRD CASE AT HAMBURG. All Come From Emigrants Who Land-

ed in the Town. HAMBURG, Sept. 6—A case of cholera, the third up to date, was found today in the heart of the business and hotel districts here.

The new case is that of a Pollsh woman living in a thinly-populated alley. The health authorities expect to discover several more cases as the result of this one.

Same Source as Others.

The authorities trace the latest case of cholera to the same source as the other two. When the Russian emigrants came to Hamburg they were permitted to cuter the town, where they visited a dance hall Here the woman evidently came into contact with them. She now lies in the Eppennderfer hospital, but may recover. Dr. McLaughlin in an interview with the Azsociated Press today said: Authorities Are Frank.

"I am very much pleased with the frankness and openness both of the authorities and the steamship companies. Today I was informed of the discovery of the latest case, but it was officially published and this information enabled me to promptly visit the infected house and neighborhood in which it was situated. I found that the precautions taken were most effective. No Danger of Coming Over. No Danger of Coming Over.

"The methods of the Hamburg-American Steamship company are very thorough, and there is no danger of the disease spreading to the United States. The American regulations require the detention of emigrants from an infected country for five days, which is the period of incubation for cholera, while the company here detains all emigrants bound for the United States for at least six days. I shall have no hesitancy in giving a clean bill of health to the Graf Waldersee for the thousand emigrants now detained on the Eulgaria in mid-stream below Hamburg."

Declares the Germ Cholera. Dr McLaughlin assisted at the bacteriological examination of today's case and declared the germ to be that of cholera. He cabled the authorities at Washington to that effect.

The Hamburg authorities have established a station for the control and examination of crews coming from the upper Fibe
